Retrofit

Get more out of your machine.

- > A retrofit is a small investment with a large return.
- > Increase the machine capacity or add extra functionality such as the latest software or hardware features or a printer.
- > A retrofit improves the reliability of your cutting machine.
- > Safety is improved greatly by updated safety systems.
- > Customized to your need. All HGG retrofit offers are tailored-fit to your need which means that you are in control of cost and gain.
- > The lifetime of your machine is extended.

- 1 Upgrade hardware and software
- 2 Increased efficiency, less downtime
- 3 Update to latest safety standards
- 4 Extended lifetime

> Discuss your need
Our customer support team works with you closely in finding out and visualizing your requirements.

> Inspect machine
Our experienced field engineer visits and examines your machine to ensure that you receive a comprehensive and accurate scope of work at the onset.

> Retrofit machine
Your old machine is upgraded to perform like a new one, increasing your production's efficiency and bottom line.
